

Find an installer

Description

Find installers, technicians and suppliers

It can be hard to find the right business who can help recommend, supply and install the right equipment to extend and boost your connection. Use the information below to find someone near you.

Installer

Find techs and suppliers who can help select and install the right equipment

The Regional Tech Hub updates and maintains a map listing companies you can contact.

This information was initially collected by Better Internet for Rural, Regional and Remote Australia (BIRRR). The businesses on this list do not indicate endorsement by the Regional Tech Hub, BIRRR or any other organisation mentioned on this website.

Before making any decisions about equipment or businesses, we recommend:

- Thoroughly investigating your options before deciding on the best provider, installer, or supplier.
- Ensuring the installer you choose is accredited and has the appropriate industry licences for the service they provide.

Are you an installer, technician or supplier and want to be added to our map?

Complete our installer directory signup form and we'll be in touch with you as soon as we can.
