

What nbn®'s Fixed Wireless upgrades mean for you

## Description

# What nbn®'s Fixed Wireless upgrades mean for you

Upgrades to nbn's Fixed Wireless network continue, with benefits set to reach nearly 750,000 homes and businesses.

While the upgrades to over 2300 towers are causing temporary disruption, many benefits are to come, including increased speeds and lower latency, and upgrades to home equipment.

As these upgrades near completion nbn have provided some answers to common questions about the equipment and how you can fully optimise your Fixed Wireless connection.

To find out more, visit nbn's [website](#).
